### Letter of invitation

Dear Dr. Ramirez Orozco Ricardo,

On behalf of the Scientific Committee we are pleased to invite you to attend the Gynecological Endocrinology - 18th World Congress to be held in Firenze (IT) from March 07 2018 to March 10 2018.

Please consider this letter as an official invitation to facilitate the processing of obtaining a visa or other travel documents needed to enable you to attend the conference. However, this letter of invitation does not confirm the successful registration in connection with full payment of the registration fee, nor does it commit the conference organisers to any kind of financial support or hosting arrangements. It does not guarantee an entry visa.

The Organizing Secretariat will not contact embassies or consulates on your behalf. You are asked to pay the registration fee as indicated in the Registration Form attached to the programme or available on the website of the congress, otherwise the registration cannot be taken into consideration.

Due to the large number of international delegates expected, every Letter of Invitation is signed using authorized, electronically scanned signatures.

We kindly ask the embassies and consulates to accept the signature on this letter in conjunction with the official conference letterhead and consider this Letter of Invitation as a valid document originating from the Gynecological Endocrinology - 18th World Congress.

Any enquiries relating to this Letter should be directed to the Organizing Secretariat, Biomedical Technologies.

We look forward to welcoming you in Firenze (IT).

Estimado Doctor:

Por medio del presente, hago de su conocimiento en base a la solicitud del informe de actividades realizadas en el evento llevado a cabo en Florencia, Italia: **"The 18th World Congress of Gynecological Endocrinology"**, con fecha de 7-10 de Marzo del año 2018. El día de inicio se llevo a cabo el registro durante la mañana, así como pláticas de pre-congreso posteriormente se dio la inauguración de dicho congreso, durante el congreso se atendieron a diversas temáticas para la actualización de tópicos, tales como: intracrinología, obesidad, menopausia, oncología y factores de riesgo en la salud de la mujer, en sus diversas modalidades como ponencias orales, discusión entre expertos y asambleas generales (conferencias magistrales). Además cabe mencionar la participación en la sesión de posters, en el cual se expusieron más de 300 resúmenes de trabajos de investigación de distintas áreas de la endocrinología de la mujer, en esta ocasión se participó con el tema: **"Role of adiposity over ER $\alpha$  and ER $\beta$  phosphorylation in reproductive women during ovarian cycle."**, en el cual hubo interacción para la publicación posterior de dicho proyecto dentro de la revista indizada de esta sociedad con el editor en jefe y organizador del evento **Andrea Riccardo Genazzani** autor de más de 994 ítems de investigación. Dentro de este simposio científico, se enriquecen distintas áreas de formación como el área de patología, fisiología y terapéutica actual, esto permitirá la actualización continua y verse reflejado en una mejor impartición de conocimiento dentro de la didáctica de la licenciatura. Sin más por el momento quedo a sus órdenes para cualquier duda o aclaración
